

July 7, 2021

Dear Assisted Living Residents:

We have some important news related to the COVID-19 virus.

You may have heard about a Delta variant of the virus that has reached many Colorado counties. It appears that vaccinated individuals are largely resistant to the variant, but it still poses a serious threat to facilities such as ours.

This variant is not yet in Denver County, but it likely will arrive here soon. Depending on what our health authorities tell us, there is high chance Kavod may need to re-introduce enhanced infection control procedures for everyone's safety.

Kavod will stay updated on the latest news from the Colorado Department of Public Health and Environment (CDPHE) as it relates to facility-level mitigation and control measures. We will keep everyone up to date with any new changes that are recommended or required in Assisted Living.

We are providing this letter with as much information as we have now. If you have further questions, feel free to call me at 720.382.7825. Thank you!

Christy Martinez
Director of Assisted Living
