

October 5, 2021

Dear Resident Family Member(s),

We learned on Thursday (11/3) that a resident tested positive for COVID-19. This individual is isolating in his/her apartment according to CDC guidelines. If further actions are needed on campus to keep everyone safe, we will let you know. By law, we are not able to release further details about this case or individual.

For now, our safety protocols remain the same. Being vaccinated against COVID-19 is a strong protective measure, but people are still contracting the virus. **Encourage your loved one to wear their mask indoors, stay physically distanced from others and wash their hands thoroughly and often.**

If you have further questions, call our hotline at 303.591.4890; you may need to leave a message so speak clearly and leave your phone number. Alternatively you may reach out to your family member's Care Coordinator. We will continue to keep you and our community informed of changes in the situation.

Additionally, our Dining Services department had an update for our Independent Living residents, which can be accessed [here](#). Assisted Living residents are not affected by these changes.

We are grateful to have your family member with us at Kavod.

Sincerely,

Michael Klein  
President and CEO
